

Supplements

*Supplements
for every need*

- ❖ **Star*Shine 26% Protein Pellets (X2924BP):** Available in 50 # bag or 10 # bucket
Protein supplement pellet containing milk-based proteins for all classes of livestock, horses, and poultry.
 - Offer as a top-dress when a boost in growth and performance is desired in young, light-weight, early-weaned stock.
 - Can be fed to starting and growing beef and dairy calves, foals, lambs, kids, rabbits, swine and poultry.
 - Provides 26% crude protein + vitamins and minerals + direct-fed microbials (yeast and probiotics).
- ❖ **Star*Shine EquiBloom OmegaPack (X2305BP):** Available in 50 # bag or 10 # bucket
High-fat mini pellet, high in omega fatty acids, for horses.
 - Offer as a top-dress to the horse's regular diet when enhanced body condition is desired.
 - Made with beet pulp and high-quality fat ingredients such as rice bran, flax seed, and vegetable-based fats.
 - Provides a high level of Omega-3 and 6 fatty acids to improve luster and shine to skin and coat and to reduce the pain associated with inflammation: 2.5 % ω -3 and 5 % ω -6.
- ❖ **Star*Shine FatPack (X2930BP):** Available in 40 # bag or 10 # bucket
High-fat mini pellet for sheep, cattle, goats, and pigs.
 - Offer as a top-dress to enhance body condition or to increase the finish on sheep, calves, goats and pigs.
 - Mammalian-based fat source provides a "harder finish" and "firmer handle" as desired in show livestock.
 - Rumen by-pass fat (MegaLac) that provides a unique, controlled-release source of energy without interfering with rumen fermentation.
 - Contains Omega-3 and 6 fatty acids for improved skin and coat.
- ❖ **Star*Shine AminoPack (OX100AP):** Available in 50# bag or 10# bucket
Protein and Amino Acid supplement for all classes of horses and livestock.
 - Offer as a top-dress to enhance muscle shape or to maintain muscle when animals are being held on a restricted diet.
 - Ideal for horses that may have lost muscle tone across the top-line and in hind-quarters due to weight loss or age.
 - Contains wheat germ as a natural source of octacosanol.
 - Provides a natural source of all 10 essential amino acids, with guaranteed levels of the top 3 most "limiting" amino acids in the diet of non-ruminants: 15.0 % Lysine, 5.0 % Methionine, and 1.0 % Threonine.
- ❖ **Star*Shine ProbioPack (OX120AP):** Available in 50# bag or 10# bucket
Direct-fed microbial (probiotic) supplement for all classes of horses and livestock.
 - Offer as a top-dress to encourage feed intake and weight gain, following antibiotic use, during/following periods of stress such as weaning, diet change, when animals go off feed, or when animals are being hauled for show or sale.
 - Provides a source of yeast-based and bacterial-based probiotic activity that stimulates the growth of the natural flora, improves fiber digestion, and aids in the elimination of pathogens.

A Feed for Every Need...

List of all supplements...

Need:			Reason for offering:	Species Intended for:
